2007 Secretariat Award Recipients

The Secretariat Award recognizes ophthalmologists for special contributions to the Academy and ophthalmology. Recipients are selected by the Senior Secretaries and Secretaries in their respective areas and approved by the Board of Trustees. This annual award was developed to increase opportunities for ophthalmologists to be recognized for contributions that are outside of the scope of the current Achievement Award Program. The Board of Trustees is pleased to announce the recipients of the 2007 Secretariat Award.
